--The St. Rose Development Club would like to thank everyone for their continued support of the organization through the years. With your support of our events both with your volunteer help and as a customer we have been able to make great improvements to our park and our community. More improvements are in the foreseeable future and this can only be accomplished with the strong support of the St. Rose community. Please remember we also have set expenses like the ball diamond lights and subsidizing the in town lighting district. Hope to see everyone at the park this summer and enjoy the good times with friends and neighbors.

Thanks,

**SRDC**
